

Just leave!

I don't know why you scream why you yell at me
Don't you trust in my personality
There were things we have done together
I hope you remember

And I don't wanna think about it don't wanna know
What you think about this fucking show
So please my girl, I said please my girl
Open the door and go

Bridge:

Just go away
And keep your eyes off of me
Just turn around
And leave

Strophe:

You were laughing you were smiling you made fun of me
But I don't care about your decadence
Giving, taking, smiling, whining
Our relationship is dying
I hope you know what you do

Refrain:

I don't know what you want and what you need what you deserve

Oh...Just leave now

Staring out the window all alone
But I can't see the light while the sun is shining
Because of the emotional lightning
You are frightening

So please my girl don't mess around
Remembering the good times turns a knife in a wound
The time is the great healer
I need a good time dealer

Refrain
